Yassine Bibi

B.Sc. Computer Engineering

Experience

- **Working Student Power Platforms - WTS Digital GmbH**
  November 2024 – today

- **Working Student Digitalization - Continental AG**
  November 2022 - October 2024

- **Bachelor thesis:** VQA Using Charts in Scientific Research (Grade 2.0)
  June 2024 - December 2024

- **External software project - fullstack development**
  Kraftwerk (kwk.info)
  Winter semester 2023/2024

- **Confident handling of SQL**
  Basics of database systems (grade 1.0)
  Summer semester 2022

- **Member of the Makerlab Hannover**
  Development and implementation of projects with CAD software and 3D printers.
  Since July 2022

Education

- **Leibniz University Hanover**
  (B.Sc.) in Computer Engineering
  Ccompleted within the standard period of study on 6. December 2024 with the **grade 2.8**
  Focus: Software Development & database systems

Skills

- Power Platform Expert
- Knime, SQL, database systems & automation solutions
- AI, VLM, LLM & Transformer-based models
- Programming languages: Java, C, Python, R, C++, DAX, Power Fx, JavaScript
- Web & software development: React, Angular, SpringBoot
- Java sockets & server programming

My profile

Motivated computer engineering graduate, looking for new challenges to further expand my knowledge and skills. In addition to my sound technical expertise, logical and constructive thinking are among my most important strengths.
